

# FREE Health & Safety Program Gap Analysis

IEA can identify gaps in your Environmental Health and Safety (EHS) & Risk programs. Our qualified staff conduct a **free** program gap analysis to assist new or experienced EHS managers with prioritizing safety needs.

## Who Can Benefit

- You have experienced loss of experienced staff
- New role in EHS or risk management
- Increase in worker injuries or insurance MOD rate
- Struggling to identify program priorities and risks
- 3rd party review of programs

# 01

## Program Review Conducted

Experienced Staff review existing safety programs & training documents

We work with your availability on site and in-person

# 02

## Action Checklist and Priorities Report

- Receive a priorities report identifying gaps and risks
- Action checklist to help coordinate follow up
- Budget estimates for assistance in implementing priority action items

# 03

## Implementation of Priorities

IEA consulting to assist with in-house implementation of action items

IEA can implement remediation of safety & risk gaps

We work with your budgets and timelines
